

Let award-winning author Jennifer Swanson engage and inspire your students. She'll help them to become creative writers, thinkers, and will encourage their imaginations to **SOAR WITH SCIENCE®** through her interactive programs.

### Programs Offered

**Brain Games!** (Grades K-8) 50 minutes, 120 students

This exciting, interactive program focuses on what makes you YOU- your brain! Uses examples and activities from the book help students understand the supercomputer housed inside their head.

**The Science All Around You** (Grades -K-5), 30- 50 min, 120 students

Take a nature walk with your mind. With vivid pictures, students will learn to dissect images and see how authors get ideas for books just by walking around and noticing things.

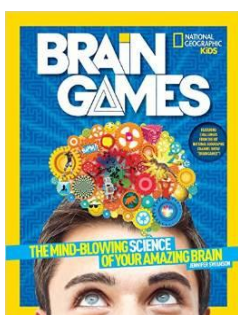

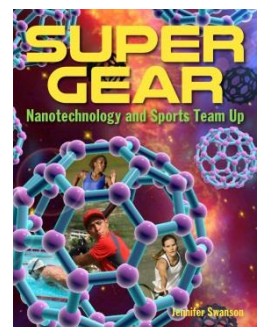

**What does a Nonfiction Author Do?** (Grades 3-8) 50 min, 90 students

Robots, Brains, and Nanotech...oh my! Discover the secrets of how a NF author chooses unique topics and fun facts that make you go "Hmmm....". Tips for research, revising, and cross-curriculum tie-ins are all covered in this instructive and enlightening program.

### Fees and Contact Information

**Half-day: Two sessions for \$400, plus travel**

**All day: Four sessions for \$700, plus travel**
